PLANNING & BUILDING

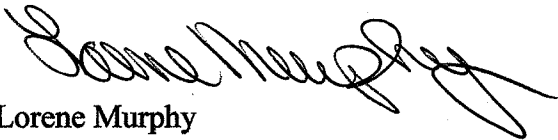

Dear Brian,

There is no way there is enough water in Upper Los Berros Canyon to handle the increase in housing, dude ranch, pool, etc. Since the vineyards went in years ago we have had a decrease in the water supply in our well already.

We share the property line with Laetitia. We strongly oppose having a dude ranch as our neighbor. We have lived here for over 50 years enjoying the serenity of the starry nights, quiet surroundings of living in the country. We want it to stay that way.

We strongly disagree to the development of the Laetitia project. They have taken enough water from us already.

Sincerely,

Lorene Murphy
